

Statistical Methods in Longitudinal Research: Volume 1: Principles and Structuring Change (Paperback)

By -

Elsevier Science Publishing Co Inc, United States, 1990. Paperback. Condition: New. New edition. Language: English. Brand new Book. These edited volumes present new statistical methods in a way that bridges the gap between theoretical and applied statistics. The volumes cover general problems and issues and more specific topics concerning the structuring of change, the analysis of time series, and the analysis of categorical longitudinal data. The book targets students of development and change in a variety of fields - psychology, sociology, anthropology, education, medicine, psychiatry, economics, behavioural sciences, developmental psychology, ecology, plant physiology, and biometry - with basic training in statistics and computing.
